CONTENTS

Overview

In order to use your iOS 7 Mail app with your Windstream Hosted Email, please follow the steps in this guide.
Step 1 - Settings App

On your device, select **Settings** and then scroll down until you find **Mail, Contacts, Calendars**. Click on that option. Select **Add Account...** under the **Accounts** section.
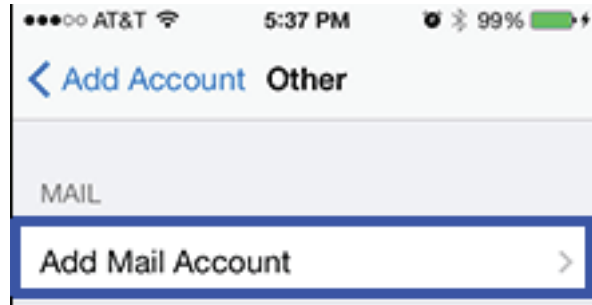

❮ Settings Mail, Contacts, Calendars

ACCOUNTS

iCloud ❯
Contacts, Calendars, Safari and 5 more...

Add Account ❯

Step 2 - Other

On the **Add Account...** screen, select the very bottom option, **Other**.
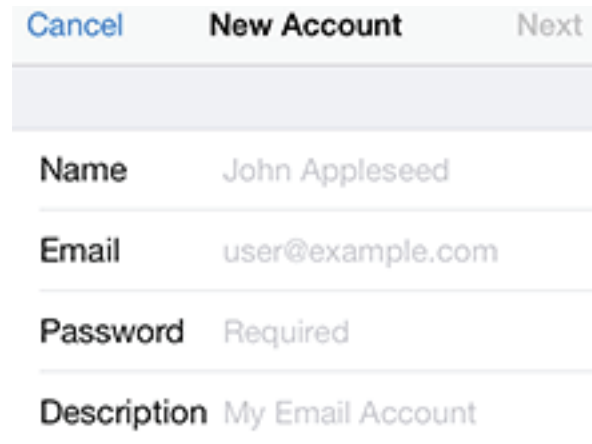

Step 3 - Mail Account

Select **Add Mail Account** under **Mail**.

Step 4 - Account Info.

Fill-in the Name, Address, Password, and Description fields and then select Next on the top right.

Step 5 - Server Settings

You will now need to enter server information for both incoming and outgoing servers. Use the information below with the server names in the table below and then select Next at the top right of your screen.

| Server Settings	
Incoming Server	mail.windstreamhosting.com
Outgoing Server	mail.windstreamhosting.com
Username	Your entire email address
Password	Your email address password

Note: More server settings can be found on the last page of this document.

Step 6 - Server Identity Popup

At this point, you may get the following message pop up. Click **Continue**.

Cannot Verify Server Identity

Settings cannot verify the identity of "mail.windstreamhosting.com". Would you like to continue anyway?

Cancel
